

S-OIL MARINE CL 70 Series

CYLINDER LUBRICANT FOR 2-STROKE LOW SPEED DIESEL ENGINE

Product Description

S-OIL Marine CL 70 Series are superior, high-alkaline, cross-head engine oils, developed specifically for lubrication of modern, high output cross-head type engines using high Sulphur fuels (under 3.5wt%). S-OIL Marine CL 70 Series are formulated from high-quality base stocks with selected additives to provide optimum oxidation resistance at high temperatures. They also provide high levels of detergency, alkalinity and load-carrying ability to meet the performance requirements of modern cross-head type slow speed two stroke marine diesel engines.

Applications

- S-OIL Marine CL Series are recommended as a cylinder lubricant for all types of slow speed cross-head two stroke diesel using high Sulphur fuels

Features and potential benefits

- Use strong alkali additives to prevent corrosion wear of the cylinder liners
- High viscosity index maintain a strong film strength at high temperature
- Outstanding detergency capability leads to cleaner piston rings and liners
- Excellent thermal stability can lead to reduced carbon deposits and sludge formation

Performance level

- SAE 50
